I focus on population dynamics to understand fundamental processes in epidemiology, ecology and evolution of infectious disease. My works are based on a combination of Mathematical analysis and Modeling with a particular focus on Dynamical Systems.

Research experience & education

- Since 2018 **Chargé de recherche IRD**, (*tenured researcher*), Laboratoire MIVEGEC, Montpellier, France.
- 2018 **Post-Doc INSERM-Paris and consulting for the medical aid organization ALIMA**, *Decision analysis tools to evaluate interventions designed for infectious diseases prevention, control, and care*, Mentor: Pr Y. Yazdanpanah, Dr J. Guedj.
- 2015-2017 **Post-Doc, AgreenSkills fellow, INRAe & IMB Bordeaux**, *Mathematics applied to theoretical evolutionary epidemiology of plant diseases: data and models to sustainably manage varietal quantitative resistance*, Mentor: Dr F. Fabre, Dr J.B. Burie, Pr A. Ducrot.
- 2011-2015 **PhD student Mathematics/Modeling**, Univ. of Yaoundé 1, Cameroon, Supervisors: Pr S. Bowong (Univ. Douala, Cameroon), Pr J.J. Tewa (Univ. Yaoundé 1, Cameroon), Reporters: Pr J. Arino (Univ. Manitoba, Canada), Pr G. Ngwa (Univ. Buea, Cameroon), Pr N. Noutchequeme (Univ. Yaoundé 1, Cameroon). Defended: June 25, 2015.
- 2011,2012,2014 **PhD research internship**, Institut Pasteur Paris, Mathematics Institute of Bordeaux, Lab. of Mathematics and Applications, Metz, Mentors: Dr S. Cauchemez, Pr A. Ducrot, Pr G. Sallet.
- 2009-2011 **Magistère in Mathematics**, University of Yaoundé 1, Cameroon (Delay differential equations and Applications to ecology).

Teaching

- 2020 **Bobo-Dioulasso**, Organizer of a one-week workshop, Introduction to Mathematical Modeling of Infectious Diseases.
- 2019 **Conakry**, Trainer during a one-week workshop, Global Changes and Emerging Infectious Risks.
- since 2017 **Montpellier, Bordeaux**, Optional teaching on Dynamical Systems and Modelling, Approximately 10h of lecture per year in French Universities.
- 2012-2015 **Yaoundé**, Monitorat. Higher Teacher's Training College, University of Yaounde 1, Level: Bachelor degree. Scientific computing, On average, 32 hours of lectures per year (in two years) and 28 hours of practical work per year (in 3 years).
- 2011-2014 **Yaoundé**, Monitorat. National Advanced School of Engineering, University of Yaounde 1, Mathematical analysis, Statistics-Probability, On average, 100 hours of tutorials per year (in 3 years).

Publications

20 peer reviewed research articles since 2012 all according to the Web of Science and 1 book chapter.
List of publications: <https://cv.archives-ouvertes.fr/ramses-djidjou-demasse#>

Mentoring and supervision

- **Post-doctoral fellows**: *Quentin Richard* (Since 2019-)
- **PhD Students**: *Mboya Ba*, UCAD, Dakar (since 2018-).
- **5 MSc students** supervised and co-supervised since 2016.

Invited speaker at international conferences

- 2020 **COVID-19 Dynamics & Evolution**, Virtual conference.
- 2019 **Fifth Conference on Computational and Mathematical Population Dynamics**, Florida, USA.
- 2017 **Eighth Workshop Dynamical Systems Applied to Biology and Natural Sciences**, Evora, Portugal.

Funding

2015-2017 AgreenSkills international postdoctoral fellow.

Conference organisation

2020 Member of the scientific committee of the conference *Ecology and Evolution of Infectious Diseases*, Montpellier, <https://www.eeidconference2020.org/>.

Other collective duties

2018- Organiser of the weekly seminars in Modelling of Infectious Diseases, Montpellier

Popular science (in French)

Articles
